

Operating System

The practices which direct TCC's decision making:

1. Clarify the Win

- *When all is said and done, what is the most important thing for us to accomplish?*

2. Think Steps, Not Programs

- *Where do we want our people to be, what do we want them to become, and is our programming designed to take them there with easy, obvious, and strategic steps?*

3. Narrow the Focus

- *Who are we trying to reach, what are we trying to accomplish, and is this environment designed to do it well?*

4. Teach Less for More

- *What are the few, memorable, most important message themes for your ministry?*

5. Listen to Outsiders

- *Are we focused on those we are trying to reach, not those we are trying to keep?*

6. Replace Yourself (intentional apprenticing)

- *Are you taking the responsibility to train and prepare someone else to do the job you're currently doing?*

7. Work On It

- *Are we intentionally taking time out to celebrate and evaluate?*
